SECTION 01 · INTRODUCTION

# You just made the smartest grocery decision of the year.

Here's what usually happens. It's 5:30 on a Wednesday. You're tired, the fridge is full of things that don't add up to a meal, and the delivery app is one thumb away. Forty minutes and $60 later, dinner is lukewarm and the protein goal is a memory.

*This book exists to end that moment.*

**Big Protein, Small Bill** isn't a cookbook in the usual sense. It's a **system**. Every week starts with one grocery list, priced at real Aldi and Walmart shelf prices and organized aisle by aisle. Every item gets used: the coleslaw in Monday's wrap comes back Wednesday, and one tub of Greek yogurt becomes four different sauces.

Spend one hour on Sunday and weeknights take fifteen minutes. You get breakfasts you can make half-asleep, lunches that survive a lunchbox, and dinners worth sitting down for. Every week ends with an optional steakhouse-style treat that costs less than a fast-food combo.

Seven weeks. 112 recipes. 120 grams of protein a day. Under $75 a week.

*Let's go shopping.*

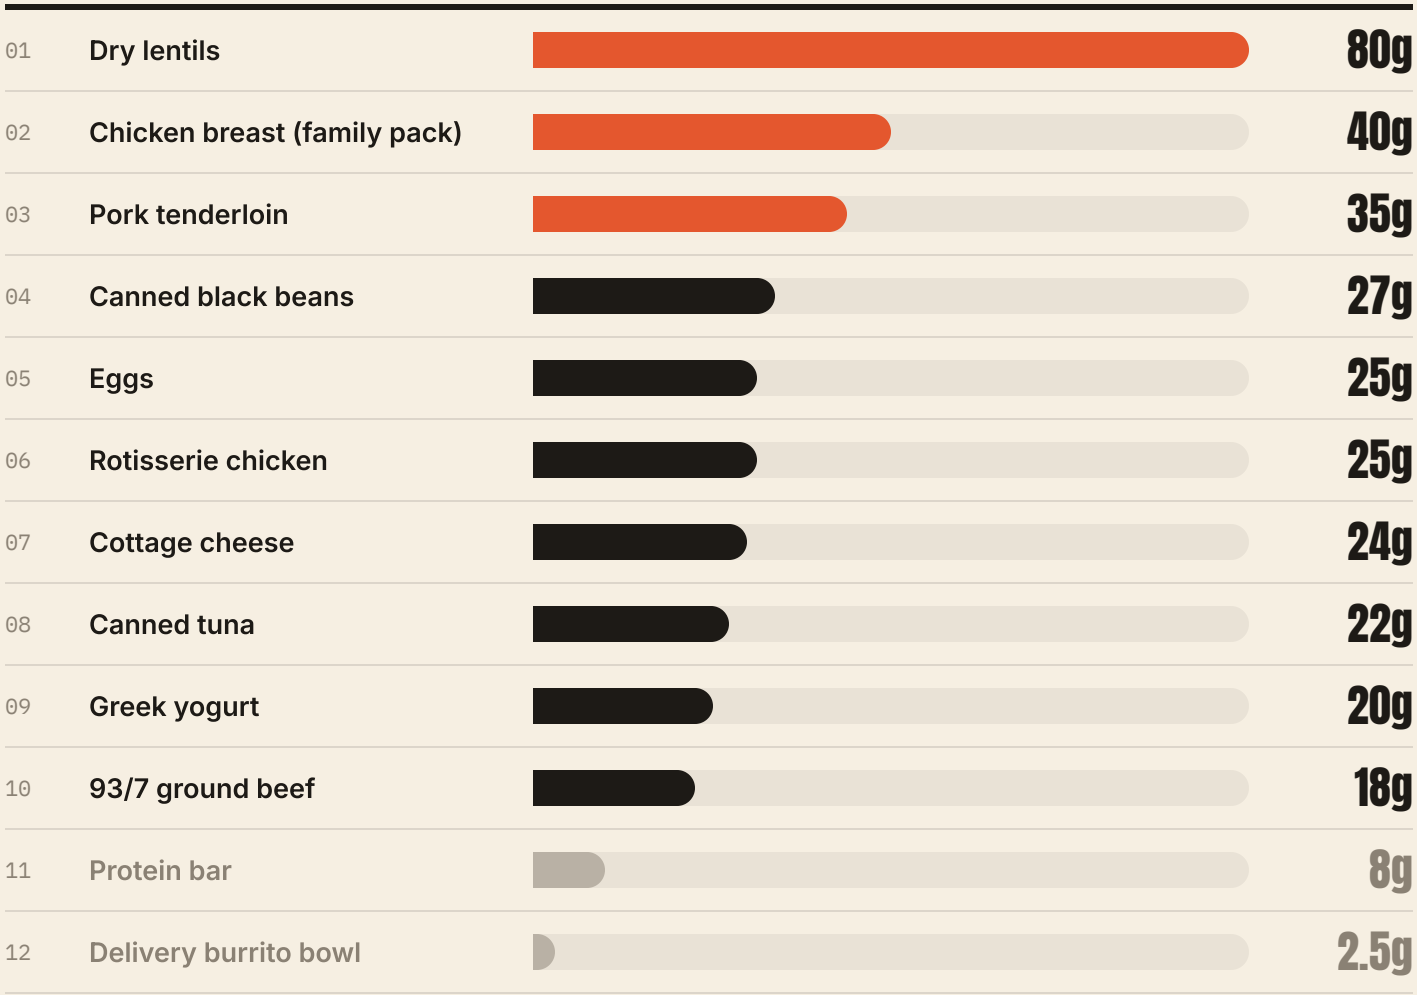
# NOT ALL PROTEIN COSTS THE SAME.

*Grams of protein you get for every $1 at a typical big-box store. This chart is the reason the book is built the way it is.*



### THE WORKHORSES

Chicken, pork tenderloin, eggs, beans and cottage cheese do the heavy lifting Monday to Friday.

### THE FLAVOR-MAKERS

Ground beef, tuna and Greek yogurt cost a bit more per gram but carry the dishes people crave.

### THE MONEY PITS

Bars and delivery bowls cost 3–10× more per gram of protein. Those are exactly what we replace.

ESTIMATES BASED ON TYPICAL 2024–25 US BIG-BOX SHELF PRICES. SALES AND REGION WILL MOVE THESE NUMBERS.

THE 4 GOLDEN RULES

**1.** Shop the list, not the aisles. Impulse buys are the budget killer.

**2.** Buy family packs on sale and freeze flat in zip bags.

**3.** One rotisserie chicken is three meals. Always strip it the day you buy it.

**4.** Store brand everything. Same product, different sticker.

## WHERE TO SHOP

### ALDI

Cheapest eggs, dairy and produce in America. Buy the store brand of everything; it's often made in the same factories.

### WALMART

Family-pack chicken around $2.47/lb, Great Value marinara and beans, and a ~$5 rotisserie chicken. Order pickup to skip impulse buys.

### COSTCO

The $4.99 rotisserie chicken is the best protein deal in retail. Split bulk beef and 5-dozen eggs with a neighbor.

### KROGER

Clip digital coupons before you go. Check the meat case in the morning for orange markdown stickers.

COOKING FOR A FAMILY?

Every list shows a family-of-four estimate. Double the proteins and produce. Pantry items, sauces and spices mostly stay the same, so the bill grows about 2.2×, not 4×.

## LET'S COOK

1. Microwave the potatoes until fork-tender, about 6 minutes. Smash flat, spray with oil and salt, and air fry at 400°F for 12 minutes, adding the broccoli for the last 8.
2. Pat the steak bone-dry and season with salt, pepper and onion powder.
3. Heat the cast iron until it just smokes. Add the oil, then the steak in a single layer. Don't touch it for 2 minutes.
4. Flip and cook 1 minute more. Turn the heat to low, add butter, garlic and pepper flakes, and toss for 45 seconds, spooning the foaming butter over everything.
5. Rest 2 minutes. Plate with the potatoes and broccoli and pour the pan butter over the top.
